

**White-labeled
platform**

**Plug & Play
to go digital**

**No new hardware
required**

**GMP AI for
3x faster entry/exit**

Set up digital parking in any environment.

Our GateKit retrofits with your existing equipment. Set up free-flowing traffic in your locations with touchless payments. Parkers create sessions and pay online via an app or web app, custom-branded for your business.

Features

- **Save up to 90% on CapEx** with hardware-light upgrades
- Remote gate control and **live lane monitoring**
- Get up to **99.8% session accuracy** with GMP AI
- Reduce support calls by **84%**
- **White-labeled** signs, display software and kiosks

A white-label app

App users get faster entry/exit and automated payments

Tap & Park

Tap a card at the gates to park and pay. No apps, no tickets

Scan to Pay

Scan a QR code to pay online via a website

Expresslane

GMP AI corrects LPR misreads and fixes broken sessions
