

Event Parking in the Palm of Your Hand

An Online & Offline Event Parking App

A high-speed handheld solution built for high-volume event parking operations, online or offline.

Built for Real-World Event Conditions

Always On

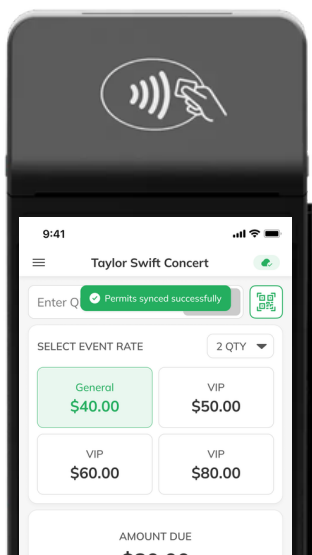

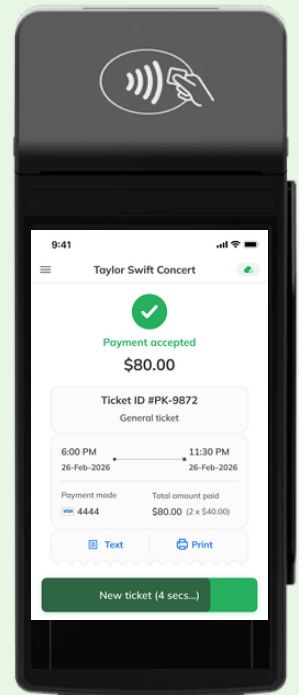

-  Offline + online operations
-  Syncs when connectivity returns
-  Keeps lanes moving during outages

No downtime. No lost revenue.

Designed for Speed

-  Process multiple vehicles in one transaction
-  Accept permits, validations, and reservation QR codes
-  Optimized for high-throughput entry lanes

Keep lines moving at peak rush.

Smart Event Pricing

-  Set different rates for different events
-  Update rates during live operations
-  Reservations & permits sync on the go

Stay flexible in real time.

Simplified Event Operations

Staff Management

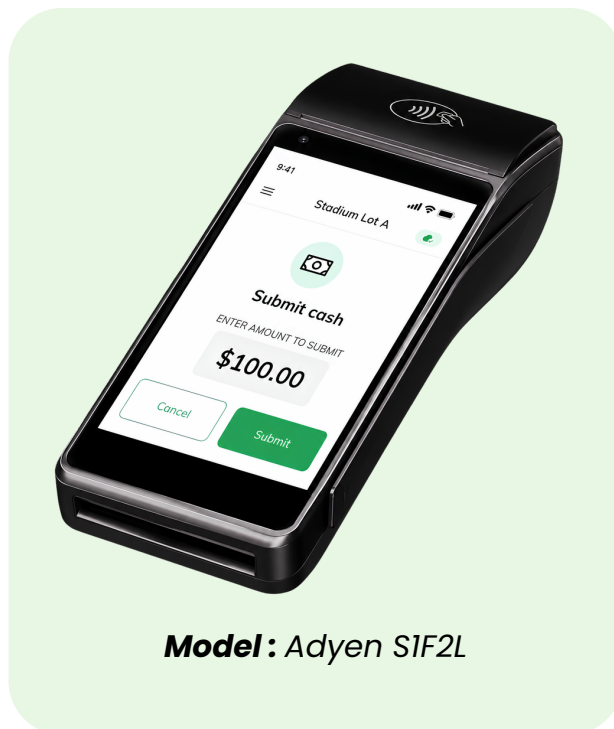

- Individual attendant logins
- Reporting by attendant and device
- Access limited to assigned events

Simple access. Better accountability.

Cash Handling, Simplified

- Hold-to-confirm cash collection
- Submit cash throughout the event
- Full cash history tracking

Flexible for operations. Accurate for reconciliation.

Why Choose Our Event Solution

- ✓ Faster throughput
- ✓ Works online or offline
- ✓ Easy for attendants to use
- ✓ Built for live event environments
- ✓ Reduces manual errors
- ✓ Third-party reservation & permit integrations

Turn Every Attendant Into a Revenue Engine

With **GMP Events**, you're not just managing parking, you're optimizing every entry, every transaction, and every moment of peak demand.
