Go ticketless with a pocket-friendly GateKit.

One solution, many ways to park and pay.

GMP Access is an IoT GateKit that retrofits seamlessly with your existing gates to make them smarter and faster.

Digitize access in your locations and set up touchless, cashless payments. Provide a hands-on parking experience for both your regulars and walk-ins.

Features

- Plug & Play installation in no time
- Remotely control your offline gates
- Monitor all your locations in real-time
- Cut upgrade costs with retrofit technology
- Round-the-clock support and query resolution

A white-labeled app

App users have instant, seamless access with AI-powered LPR

Tap and Park

Tap a card at the gates to park and pay - no downloads, no tickets.

Scan to Park

Scan a QR code to pay online via a web app

Text to Park

Send a text to create a session and pay online via a web app
